Incident Control Systems Receives Contract to Supply Add-on Armor for the Interim High Mobility Engineering Excavator.

New Bedford, MA, September 30, 2008: **Incident Control Systems, LLC** has been awarded a contract to continue the supply of Advanced Composite B-kit Armor for the Interim High Mobility Engineering Excavator (IHMEE). This latest contract awarded by **Oshkosh Corporation** of Oshkosh, WI will put the total armor built by ICS to over 70 kits. "This is a new partnership for us and we are very excited to be working with Oshkosh Corporation to provide these kits to the Army" said Eddie Terrenzi, VP of Business Development for Incident Control Systems, LLC.

A year ago ICS was selected as an Add-on Armor supplier for the IHMEE by US Army TARDEC after having gone through extensive testing. Over the past year ICS has provided Add-on Armor for the entire fleet of vehicles. "We are very pleased and honored that the US Government and Oshkosh has continued to place their trust in us and our advanced armor solutions" said Steve Monette, General Manager of Incident Control Systems, LLC.

Headquartered in New Bedford, Massachusetts, Incident Control Systems is a small business that specializes in the design, manufacture, and integration of advanced composite armor solutions for military combat vehicles.
